Quality & Environmental Policy and Objectives Statement

Expamet Limited Quality & Environmental Policy is to provide our customers and other interested parties with products and services that consistently satisfy their requirements and expectations.

The management team of Expamet Limited are fully committed to the development, maintenance and continual improvement of the quality & environmental management system. The adaptation of risk-based thinking and a process approach shall be taken when developing, maintaining and improving the quality and environmental integrated management system.

Successful implementation of this policy requires the commitment from all employees to make it work and processes that intuitively make sense. All employees are expected to take responsibility for the quality and environmental impacts of their own work and encouraged to actively contribute to the continual improvement of our standards, processes, product delivery and service. The requirements of the quality and environmental management system are mandatory and failure of employees and sub-contractors to comply with these requirements may result in disciplinary or other remedial action being taken by the Company.

The objectives of the quality & environmental management system are:

- To achieve and maintain a level of quality and customer satisfaction that we are proud to be associated with.
- To ensure compliance with all relevant legal & statutory regulations.
- To develop a company culture in which all employees actively contribute to improving the quality and environmental impacts of the products and services provided by Expamet Limited, Hartlepool Site
- To maintain an integrated quality and environmental management system that complies with International Standards ISO 9001 and ISO 14001 and is continually improved.
- To reduce the generation of waste
- To promote and facilitate the usage of recycled products and materials
- To avoid excessive energy consumption
- To prevent any form of environmental pollution relevant to the context of our business operations

A series of Key Performance Indicators (KPI's) shall be developed by the management team and shall be supported by improvement plans and initiatives which are regularly reviewed to ensure that appropriate quality and environmental objectives are established and met.

Signed:

Attila Szabados, General Manager

Patrick Cowan, Operations Director
